DETAILED ACTION

Information Disclosure Statement

The Information Disclosure Statement filed on Jan. 7, 2002 is acknowledged.

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-26 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-12,27-30 of U.S. Patent No. 6,056,399. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed invention as claimed in claims 1-26 is substantially the same as that in claims 1-12,27-30 of the '399patent. All elements claimed in claims 1-26 in the present patent application are included in claims 1-12,27-30 of the '399patent. These elements in the present application perform the same function as those of the elements in claims 1-12,27-30 of the '399patent. Thus,

Art Unit: 2873

the invention claimed in claims 1-26 is substantially identical to that in claims 1-12,27-30 of the '399 patent.

3. Claims 1-26 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-24 of U.S. Patent No. 5,708,489. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed invention as claimed in claims 1-26 is substantially the same as that in claims 1-24 of the '489 patent. All elements claimed in claims 1-26 in the present patent application are included in claims 1-24 of the '489 patent. These elements in the present application perform the same function as those of the elements in claims 1-24 of the '489 patent. Thus, the invention claimed in claims 1-26 is substantially identical to that in claims 1-24 of the '489 patent.

Allowable Subject Matter

4. Claims 27-33 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 1-33 have been considered but are moot in view of the new ground(s) of rejection.
